SUMMARY

As a skilled full-stack web developer, I possess proficiency in HTML, CSS, JavaScript, React js, Python, Django GitHub, and JIRA. My strong communication, leadership, time management, and problem-solving abilities enable me to effectively contribute to collaborative development projects.

PROJECTS

1. Okilau E-commerce

<https://multipage-pied.vercel.app/>

- **Create a basic HTML structure:** Define the fundamental elements of the website, such as the header, navigation, main content area, and footer.
- **Style the elements with CSS:** Use CSS to design the appearance of the website, including colors, fonts, layout, and spacing.
- **Implement essential features:** Add core functionalities like product listings, shopping cart, checkout process, and contact information using HTML and CSS.

2. Gamzee

<https://vercel.com/dhruv0405-shivhares-projects/js-task>

- **Create a basic HTML structure:** Define the fundamental elements of the website, such as the header, navigation, main content area, and footer.
 - **Style the elements with CSS:** Use CSS to design the appearance of the website, including colors, fonts, layout, and spacing.
 - Provided logical implementation using JavaScript.
-
